Sustainability at heart

In addition to the satisfaction of our guests, the issue of sustainability is also very close to our hearts. That's why we use rPET cups on board – these are made from recycled plastic and therefore use fewer resources. Our goal by 2025 is to offer plastic packaging and on-board products made only from renewable or recycled materials that can be reused, recycled or composted at the end of their life. If you would like to make your own contribution as well, you can fly CO2-neutral still today: Compensate your CO2 emissions with us on board using the QR code.
