

## Flying with children – checklist

With Lufthansa's practical checklist you will be well prepared for your trip with the whole family. Simply tick off each item and your holiday can get started.

### When you book your flight

- You can conveniently plan several details for your flight at the same time as you make your booking: Enter the ages of all the children travelling with you when you book. (Children who turn two during the journey will need their own seat.)
- If applicable, tell us that you are travelling with a baby.
- Order children's menus. As a rule, children's menus are available on flights lasting 185 minutes or more in Economy Class and 75 minutes or more in Business Class. You can book children's menus at the same time as you book your flight or at a later time, up to 24 hours before departure, online or through the Lufthansa Service Centre on +49 (0)69 – 86 799 799.

### Before your journey

- Have you got your children's travel documents? Children now require their own travel documents with a photo, in the form of a children's passport, child's ID card or ID card. Unfortunately entries in their parent's passport are invalid.
- Check in conveniently online from 23 hours before departure and secure the seats you want.

### Baggage

You're probably already a seasoned pro when it comes to packing for your children to go on holiday; nevertheless we have put together a few tips for you on what to take with you in hand luggage especially, so that your children have everything they need during the flight.

- For children under 7 years or children who weigh less than 18 kg, we strongly recommend you take child restraint systems with you.
- You can take a pushchair or pram straight up to your Lufthansa flight.

- You can take one compact, foldable baby buggy (max. dimensions 55 x 40 x 23 cm) on board with you as carry-on baggage, or two if you are travelling in Business or First Class.
- Your children's favourite toys are packed in your hand luggage.
- Warm socks, enough warm clothes and your children's favourite snacks are in your hand luggage.
- Baby's favourite food or bottle, as well as nappies, are also packed even though we have baby food available on all Lufthansa flights.

In our category children on board we have put together a few games that are ideal for playing on board. Get inspired!

Lufthansa wishes you and your whole family a good flight!
